

Financial Controller – London – Technology

Description

Job Title: Financial Controller

Location: London, UK (Hybrid Working)

Company: [Company Name – Early-Stage Data Centre Provider]

Reports To: Chief Financial Officer / CEO

Salary: Competitive + Equity Options

About Us

We are a fast-growing, venture-backed data centre provider based in London, delivering high-performance, energy-efficient infrastructure to support the digital economy. With our first facilities launched and more in the pipeline, we're on a mission to become a leading player in the UK and European data centre markets. As we scale rapidly, we're looking for a driven and detail-oriented **Financial Controller** to join our team and help build a world-class finance function from the ground up.

The Role

As our Financial Controller, you will take ownership of all financial operations, reporting, and compliance across the business. You will play a key role in shaping financial processes, ensuring rigorous control as we grow, and providing insight to support strategic decisions. This is a unique opportunity to join an early-stage business and help define the financial foundation of a high-growth infrastructure company.

Responsibilities

Key Responsibilities

- Lead day-to-day finance operations, including accounts payable/receivable, payroll, VAT, and bank reconciliations.
- Prepare timely and accurate monthly management accounts and board reporting packs.
- Develop and implement financial controls, policies, and systems appropriate for a scaling business.
- Manage annual budgeting and quarterly reforecasting processes in collaboration with the executive team.
- Oversee financial planning, cash flow forecasting, and scenario modelling.
- Liaise with external accountants, tax advisers, auditors, and investors.
- Ensure compliance with UK accounting standards, tax regulations, and statutory filings.
- Support fundraising processes, including data room preparation and financial due diligence.
- Partner with operations and commercial teams to improve reporting, cost tracking, and performance analysis.
- Contribute to the design and implementation of new financial systems and tools as needed.

Qualifications

Requirements

- Qualified accountant (ACA, ACCA, CIMA or equivalent).
- 5+ years of post-qualification experience, including time in a high-growth, entrepreneurial environment.
- Strong understanding of financial reporting, controls, and compliance.
- Experience with infrastructure, real estate, energy, or data centre sectors a plus.
- Comfortable working in a dynamic, fast-paced startup environment.
- Excellent Excel and financial modelling skills; experience with cloud-based accounting systems (e.g., Xero, NetSuite) preferred.
- Detail-oriented, highly organised, and proactive in improving processes.
- Clear communicator with the ability to influence across teams and levels.

Job Benefits

What We Offer

- A pivotal role in an ambitious and mission-driven company.
- Exposure to cutting-edge infrastructure and sustainability practices.
- A collaborative, entrepreneurial team culture.
- Flexible hybrid working based in Central London.
