

Financial Controller – SaaS – London

Description

Job Title: Financial Controller
Location: London / Hybrid (International SaaS Business)
Job Type: Permanent
Reports to: Finance Director
Salary: Competitive + Benefits + Equity Options

About the Company

Our client is a **rapidly scaling international SaaS platform** that has recently secured significant **Series B funding** and is experiencing a highly successful 2025. With a mission to transform the industry through cutting-edge, data-driven solutions, this innovative business is entering its next phase of global growth and operational expansion.

As the company evolves, they are now seeking a talented **Financial Controller** to join their team in a **newly created role** that will support strategic finance operations and help build out the finance function.

About the Role

Reporting to the Finance Director, the **Financial Controller** will be the **second key hire in the finance team**, with responsibility for building and managing a team beneath them. This is a broad and hands-on role that covers technical accounting, global financial reporting, process improvement, and compliance.

You will play a critical role in supporting the company's rapid scale-up, ensuring financial rigour and helping to establish a robust and future-proof finance function fit for international operations and future funding events.

Responsibilities

Key Responsibilities

- Support the Finance Director in scaling and professionalising the finance function
- Lead the preparation of monthly, quarterly, and annual consolidated financial statements
- Oversee day-to-day finance operations, including international entities and multi-currency transactions
- Ensure compliance with relevant accounting standards (IFRS/US GAAP), local tax regulations, and internal controls
- Lead the development and implementation of financial systems, processes,
