

Financial Controller – Technology Sector

Description

?? London (Hybrid)

?? Full-Time | Permanent

?? £90,000 – £105,000 + Bonus + Benefits

About the Role:

AccountancyCapital.co.uk is proud to be recruiting on behalf of a highly successful, fast-growing **Microsoft products reseller** headquartered in London, with a turnover of **£15 million** and ambitious growth plans.

We are seeking an accomplished **Financial Controller** to take ownership of the finance function, driving robust financial reporting, strategic insight, and operational excellence. This is a high-profile role reporting directly to the CFO, ideal for a commercially savvy finance leader looking to play a key part in a dynamic tech environment.

Responsibilities

Key Responsibilities:

- Lead the day-to-day operations of the finance function, managing a small, high-performing team.
- Deliver timely, accurate monthly management accounts, financial reports, and board packs.
- Ownership of budgeting, forecasting, cashflow management, and variance analysis.
- Business partner with Sales, Procurement, and Operations to drive financial performance and margin improvement.
- Ensure compliance with statutory and regulatory requirements, including VAT and Corporation Tax.
- Oversee year-end audit processes and manage relationships with external auditors, tax advisors, and banking partners.
- Strengthen internal controls, risk management, and financial governance across the business.
- Provide financial modelling and support on strategic projects, acquisitions, and new business initiatives.
- Continuously review and improve finance systems and processes (current system: Dynamics 365 Business Central).

Qualifications

Candidate Profile:

- ACA, ACCA, CIMA qualified (or equivalent).
- Proven experience as a Financial Controller or Head of Finance within a high-growth SME or mid-sized business.
- Strong technical accounting knowledge and a hands-on approach.
