Insolvency Manager — Restructuring & Recovery

Description

Birmingham or London (hybrid) • £58,000–£75,000 + benefits • Permanent

Accountancy Capital is recruiting an Insolvency Manager for a well-established restructuring and recovery practice with offices in the Midlands and London. The firm handles a genuinely varied caseload — CVLs, administrations, MVLs and advisory work for stressed but viable businesses — and the role offers a clear route towards appointment-taking for a candidate with JIEB ambitions.

The Role

Managing a portfolio of corporate insolvency cases from appointment through to closure — CVLs, administrations and MVLs

Leading investigations, SIP 2 and CDDA reporting, and asset realisation strategies

Preparing statutory reports, progress reports and creditor communications to deadline

Supporting advisory engagements — independent business reviews, time-to-pay negotiations and solvent restructurings

Supervising and developing administrators and senior administrators

Direct exposure to appointment-taking IPs, with support for JIEB study where relevant

Responsibilities

About You

CPI qualified as a minimum; JIEB passes (full or partial), ACA or ACCA all strengthen an application

Solid corporate insolvency case management experience gained within a recognised practice

Confident running cases with appropriate autonomy — statutory compliance, creditor management and realisations

Working knowledge of IPS or Turnkey case management systems

Comfortable dealing directly with directors, creditors and solicitors, often in difficult circumstances

Candidates at Assistant Manager level ready for a step up, and appointment-taking IPs seeking a better platform, are both encouraged to apply — the firm has flexibility around level for the right person.
